

jdk savdecc_aem_command
_acquire_entity_response
_get_command_type

```
graph LR; A["jdk savdecc_aem_command  
_acquire_entity_response  
_get_command_type"] --> B["jdk savdecc_uint16_get"]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains three lines of code: `jdk savdecc_aem_command`, `_acquire_entity_response`, and `_get_command_type`. A blue arrow points from the right side of this box to a white rectangular box on the right. This white box contains the text `jdk savdecc_uint16_get`, which is the function being called by the `_get_command_type` line in the code block on the left.
