

jdksavdecc\_aem\_command  
\_set\_stream\_info\_response  
\_set\_controller\_entity\_id

```
graph LR; A["jdksavdecc_aem_command  
_set_stream_info_response  
_set_controller_entity_id"] --> B["jdksavdecc_eui64_set"]
```

The diagram illustrates a dependency between two Java packages. On the left, a gray-shaded box contains the package `jdk.savdecc.aem.command` and its sub-packages `_set_stream_info_response` and `_set_controller_entity_id`. A blue arrow points from this box to a white box on the right, which contains the package `jdk.savdecc.eui64.set`. This indicates that the packages in the left box depend on the package in the right box.
