

jdksavdecc_aem_command
_get_as_path_response
_set_controller_entity_id

```
graph LR; A["jdksavdecc_aem_command  
_get_as_path_response  
_set_controller_entity_id"] --> B["jdksavdecc_eui64_set"]
```

The diagram illustrates a dependency relationship between two Java packages. On the left, a gray-shaded box contains the package `jdk.savdecc.aem.command` and its sub-packages `_get_as_path_response` and `_set_controller_entity_id`. A blue arrow points from this box to a white box on the right, which contains the package `jdk.savdecc.eui64.set`. This indicates that the `jdk.savdecc.aem.command` package depends on the `jdk.savdecc.eui64.set` package.
