

getCheckCount

```
graph RL; TEST[TEST] --> getCheckCount[getCheckCount];
```

A diagram illustrating a function call. On the left is a gray rectangular box with a black border containing the text "getCheckCount". On the right is a white rectangular box with a black border containing the text "TEST". A dark blue arrow points from the right side of the "TEST" box to the right side of the "getCheckCount" box, indicating a call or interaction from the test to the function.
