

igb\_configure\_msix

```
graph LR; A[igb_configure_msix] --> B[igb_assign_vector]; B --> C[igb_write_ivar];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'igb\_configure\_msix', which is shaded gray. A dark blue arrow points from this box to a second, white box labeled 'igb\_assign\_vector'. Another dark blue arrow points from the second box to a third, white box labeled 'igb\_write\_ivar'. All boxes have a black border and are arranged horizontally.
