

get_end_station_index

```
graph LR; A[cli_argument_end_station::set_value] --> B[get_end_station_index];
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'get_end_station_index'. The box on the right is white and contains the text 'cli_argument_end_station::set_value'. A dark blue arrow points from the right box to the left box, indicating a call or relationship between the two.
