

aaf_get_field_nsr

```
graph LR; A[aaf_get_field_nsr] --> B[avtp_aaf_pdu_get]; B --> C[get_field_value];
```

The diagram illustrates a sequence of three function calls. The first function, 'aaf_get_field_nsr', is highlighted with a gray background. It calls the second function, 'avtp_aaf_pdu_get', which in turn calls the third function, 'get_field_value'.

avtp_aaf_pdu_get

get_field_value
